About the College

S.G.N. Government Post Graduate College, Muhammadabad Gohna, Mau was established in 1979 by the State Government of Uttar Pradesh as one of the pioneering institutes of higher learning with the vision of providing access to the students of rural and under developed areas to higher education with the aim of providing high quality education at their doorsteps, at minimal economic cost through optimal utilization of available resources. The college has co-education system and the motto of this institution has been, besides education, to inculcate values among the students and live up to the expectations of good citizenship by organizing different programmes in the college. The college is affiliated to Veer Bahadur Singh Purvanchal University Jaunpur (U.P.) and attracts students for higher education in friendly environment because of availability of a number of familiar subjects for choices and affectionate relation between students and teachers and also project supervision by experienced teachers with traditional quality education. Presently, there are two faculties Arts and Science with the student, teaching staff and administrative/technical/supporting staff. Over all 18 departments are running of undergraduate programmes and Ph. D courses in their respective fields, out of which 07 offer postgraduate courses.

About The Host Town:

Muhammadabad Gohna is a town and nagar panchayat in Mau district in the Indian state of Uttar Pradesh. Muhammadabad Gohna is located between Azamgarh and Mau district at 22Km from both cities on Azamgarh to Mau national highway. The town is situated on 26.0468558 latitude and 83.437242595043 longitudes.

About the Seminar:

The COVID-19 outbreak is a global financial and public health crisis. Economic growth has shown a steep drop and is predicted to continue the same considerably in the near future to a great extent on a long-term basis, as gains in the tourism, aviation and extractive sectors, among others, are completely wiped out. The loss of connectivity imposed to prevent the virus spreading triggers an economic 'contagion', causing major disruptions to trade, tourism, energy and finance sectors, while easing environmental pressures most in some of the hardest-hit areas. We are experiencing the worst economic shock since the Great Depression, while at the same time we have experienced the greatest drop in greenhouse gas emissions since the burning of fossil fuels began. In addition to the sudden drop in climate-change inducing greenhouse gasses, prevented deaths from air pollution are of major significance.

The proposed seminar intends to focus on the pertinent issues of our times. This symposium provides a platform for not only dissemination of information and knowledge but also suggesting effective action by building up mass awareness for conservation and preservation of our environment which is common heritage of mankind.

Sub- Themes

- Covid-19 and its implications on Global, Social, Economy and Environment.
- Challenges and Opportunities in education sector during pandemic period.
